CT GROUP & CT UNIVERSITY CELEBRATES LOHRI WITH A FESTIVE SPIRIT AND GAIETY

The festival of Lohri was celebrated in CT Group with great enthusiasm and pomp in association with Sarva Sukh Sewa Mission. The mood on the campus was upbeat and the students were totally absorbed in the festive spirit of Lohri. The function kicked off with a special assembly highlighting the importance of the festival, which ushers in the cheerful spring season bidding adieu to the dull winter. The students attired in traditional dresses, danced and sang songs immersed in rich cultural heritage and folklore of Punjab. Chief Guest Mr. SomParkash hon'ble Union Minister of State for Commerce and Industry, Chairman of CT Group & hon'ble Chancellor CTU Mr. Charanjit Singh Channi ,worthy Co-Chairperson Mrs. Parminder Kaur Channi , Managing Director of CT Group & Pro-Chancellor CTU, Dr. Manbir Singh, Mr.Rakesh Rathore, Mr. Sarbjit Singh Makkar, Campus Director Dr.Gurpreet Singh, Director Research & Planning Dr. Jasdeep Kaur Dhammi along with all other educators worshipped and prayed for the well-being of all the members of big CT Family and society. Chief Guest SomParkash(Union Minister of State for Commerce and Industry) appreciated the efforts of the students and educators and remarked that the people residing in Punjab attach a great significance to Lohri as this festival prompts people to be thankful to God for all the provisions and to celebrate his creations. He encouraged the students to value their cultural heritage and be on toes for the women empowerment. Mr. Arvind Sharma founder Head of Sarv Sukh Sewa Mission said that Female foeticide is both a national and a social crises. He encouraged one and all to protect and defend the girl child, discourage female foeticide and empower women in their orbits to build a better tomorrow. Hon'ble Chairman of CT Group & Chancellor CTU, Mr. Charanjit Singh Channi appreciated the efforts and remarked that Lohri is the festival of empowering and celebrating the women as well as the honour and integrity of brave men who defend them. He expressed that Team CT is dedicated to re-establish the connecting link between our rich heritage and contemporary times.

NEWS

Homecoming of an Alumni Devika Badyal: A Shinning Bollywood Star & an Alumni revisits her ALMAMATER- CT Group of Institutions, North Campus

Proud Alumni Devika Badyal was felicitated by the CT Group of Institutions, North Campus for her debut song with renowned singers of an International fame like Badshah and Karan Aujla "PLAYERS". She shared her journey of dream come true debut and her experiences with great personalities from Bollywood. She revealed about her collaboration with Badshah and Karan Aujla,

her upcoming projects & career plans, her forthcoming songs etc. She talked about her beautiful memories as a student at campus and how she was always motivated by her teachers to sing at various college events to overcome her stage fear. She appreciated and expressed her gratitude to the department of cultural affairs for providing her the platform during her formative years. She gave the credit for her success to her family, college

and producer Hiten. Managing Director of CT Group of Institutions, Dr. Manbir Singh along with Campus Director Dr. Yogesh Chhabra and Assistant Director Dr. Ramandeep Gautam congratulated and honoured Devika Badyal for her achievements and wished her a bright future ahead.

CT UNIVERSITY DEVELOP 'SMART CABINET'

CT University is fulfilling all the needs of students and providing world class knowledge to students by providing hands-on experience of science and innovations for different social requirements. Robotics and Automation Lab, CT University recently developed a smart Cabinet for Medicines. The prototype was developed with the help of Satyam Gupta and Gurkirat under the Guidance of Dr. Harmeet Singh, Deputy Director IPR Cell. The main feature of the smart cabinet is that it only opens if the persons sanitise the hand first. The cabinet opens within 20 seconds of hand sanitisation. After taking out the medicine from the cabinet, person has to sanitise again to close the cabinet. UV light is

placed inside the cabinet to sanitise the inner area. The whole cabinet is connected to the

internet. There is an OLED screen that displays the temperature, humidity and

sanitizer countdown to the users. In Future a small refrigeration unit is also proposed to be inculcated to maintain the temperature inside the cabinet. This smart cabinet can be used in old age care homes, hospitals, small clinics and even in the houses. Dr. Harmeet Singh, Deputy Director, IPR Cell expressed that the Smart Cabinet is patented and its unique feature is that the blind people can use this cabinet comfortably. For blind people, the sub cabin will come out and blind people can take the particular medicine. CT University's hon'ble Pro Chancellor Dr. Manbir Singh congratulated the achievers and Vice Chancellor (off.) Dr. Satish Kumar appreciated efforts of the team.

CT University, Ludhiana Organises Cancer Awareness & Free Medical Camp

CT University, Ludhiana in collaboration with World Cancer Care Charitable Society, DMC Hospital Ludhiana and American oncology institute organised Free Cancer Awareness and Free Medical Camp. The camp was aimed at creating early awareness among the people about the initial symptoms which can later evolve into cancer. The camp was inaugurated by S. Charanjit Singh Channi, Chancellor CT University, Vice Chairman Harpreet Singh, VC (off) Dr. Satish, Deputy Director Department of Student welfare Davinder Singh, Mr. Kulwant Singh Dhaliwal, Chairman World Cancer Care, Mr. Dharminder Dhillon MD World Cancer Care. The camp which was headed by Mr. Kulwant Singh Dhaliwal Chairman, World Cancer Care, included awareness session to inform people to get their check-up done at the initial stage so that their lives could be saved. Students and faculty were present during the session. Mr. Kulwant Singh

Dhaliwal Chairman, World Cancer Care said that the disease was curable if detected at an early stage. Also, emphasis was being laid onto getting them screened for 7 types of cancer including Breast cancer, Kidney cancer, Lymphoma, Brain cancer, Prostate cancer, Bone cancer and Lung cancer for free. A team of oncologists including Dr. Bipin, Dr. Manideep, Dr. Gulshan and Dr. Jasleen Kaur was also present to screen various patients for male and female cancers. Patients were given free medicines for blood pressure, blood sugar and other common problems. They were also provided the facility of various cancer screening related free of cost tests. Besides Jagraon, people from Ludhiana, Raikot and Moga cities also came to take benefit of this camp. More than 500 people were assessed, advised and counselled. S. Charanjit Singh Channi, Chancellor CT University, VC (off) Dr. Satish, Deputy Director Department of Student welfare Davinder Singh, honoured Mr. Dhaliwal and

the doctors for their selfless service towards humanity. He also thanked the support staff members and student volunteers of School of Healthcare & Paramedical Sciences for rendering moral and generous service towards the school. S. Charanjit Singh Channi Chancellor, CT University, Ludhiana encouraged the students to be health conscious to give the best of their energy in the right direction so that they can become better citizens and help the country in growing further and promised to undertake such initiatives in the future and contribute to the well-being of the community. On this occasion CT University's Vice Chairman Harpreet Singh, Davinder Singh, Deputy Director, Department of Student Welfare; Dr. Atul Khajuria, Professor & Asst. Dean, School of Health care & Paramedical Sciences, all the Deans, HOS all the faculty and students were present.

VARIETY

CT World School Wins Bronze Medal in Roller Skating Championship

CT World School emphasizes strongly on physical development, team spirit, discipline, nourishing Neuro-motor skills of the students by providing plethora of platforms to them like routine sports practice sessions, in-house competitions, inter school contests. CT World believes that sports have a huge impact on holistic development of a child. The mass participation and student exposure to a number of sports events at inter-school, state and national level brings out the best talent for National Games. The practical application of this approach has delivered yet another result. Our CT World School student Sukhnoor Gagan Singh brought laurels to the school by bagging Bronze medal in All India Open Promotional Roller Skating Championship held at Fatehgarh, Amritsar(Punjab). Out of 150 participants, Sukhnoor Singh proved his mettle under the

age group 12 in the category Quad (500 mtr.). He outdid majority of the competitors in Roller skating. SukhnoorGagan Singh is an

enthusiastic learner and had also proved his mettle earlier by bagging distinctive positions in curricular and co-curricular activities. On

this proud moment, Ms. Madhu Sharma, Principal CT World School remarked that our sports curriculum is planned and designed for students to develop and enhance skills like strength, speed, endurance, and balance. She also added that sports has also evolved as a form of entertainment and offers promising careers. She appreciated the student for his outstanding achievement and wished him best for his future. Charanjit Singh Channi, Chairman of CT Group congratulated the young winner and remarked that such competitions not just offers a chance for participation but also aids to gain substantial experience, showcase skills, analyse and evaluate outcomes and uncover personal aptitude. He also appreciated his efforts and encouraged him to perform best in the upcoming events.

DEPARTMENT OF TRAVEL & TOURISM ORGANIZES AIR HOSTESS TRAINING SESSION

A career as an air hostess is a female-oriented career based on hospitality services in airlines. An air hostess is responsible for ensuring comfortable and safe air travel for every passenger on the flight. She provides all the necessary requirements of the passengers depending on the company's standards. Individuals who opt for a career as an air hostess provide necessary instructions to

passengers before taking off the flight and before landing. Department of Travel & Tourism, CT Group of Institutions, North Campus organized a session to give an insight into the process of CHECK-IN in a flight and career opportunities as a flight attendant. Senior Batch of BTTM students organized, conducted and showcased the intricacies of the job expectations in the said session for the newcomers.

CT Group of Institutions Organises Faculty Development Program

One week FDP conducted by CTIEMT in association with rural development department of National Institute of Technical Teachers Training and Research (NITTTR), Chandigarh from 16-20 Jan, 2023 on the theme technical institution capacity enhancement through rural product development.

GLIMPSE

CT UNIVERSITY CELEBRATES NATIONAL START UP DAY

With a focus on promoting and encouraging upcoming businesses in the country, January 16 was adopted as the National Start Up Day in 2022. Calling start-ups as the backbone of the New India, Prime Minister Narendra Modi announced the formal adoption of this day. This year, as part of the Azadi Ka Amrit Mahotsav celebrations, several events were organized by CT University with an aim to inculcate a spirit of entrepreneurship and innovation by involving the Start Up community. The University organized the Start Up showcase competition for young learners. The event was designed to link contestants to respective support resources with an aim to help them develop

connections with potential investors, mentors, and the larger business community. Students will be getting support for their start-up business through the CT Business Incubator. Further, Dr. Harmeet Singh, Dy. Director IPR, CT University evaluated the young entrepreneurs from BCM School, Ludhiana and provided mentorship support for their business ideas. Dr. Satish Bansal, Officiating Vice Chancellor, CT University hoped to see this initiative bring together young celebrated entrepreneurs to brainstorm, innovate and excel!. India has emerged as one of the largest hubs for young start-ups and there is an opportunity to experiment and solve problems differently. This start-up day will go long way to encourage

and support the young entrepreneurs. Mr. AtiPriye, Director Planning and Development, CT University mentioned that the National Start Up Day is a great testimony as well as inspiration for all the stakeholders of the Indian start-up ecosystem which embraces Entrepreneurs, Start Ups, their employees, VCs and angel investors. Entrepreneurs and start-up founders need to stay true to their passion and not settle for anything less than their best work. If you're thinking about starting your own business, remember that it's not just about the destination, it's about the journey. Embrace the adventure and enjoy the dynamic process.

CT Institute of Law Organises Seminar On Free Legal Aid

CT Institute of Law in collaboration with District Legal Services Authority Jalandhar organized Seminar on 'Free Legal Aid & Victim Compensation'. Advocate Harleen Kaur (Panel lawyer at District Legal Services Authority, Jalandhar) was invited as a guest of honor. The Seminar was held at CTIEMT Seminar Hall. The Seminar aimed to give legal awareness to the budding lawyers. Advocate Harleen Kaur enlightened the students on Free Legal Aid & Victim Compensation, the terms and conditions for claiming the victim compensation and free legal aid. She explained in detail various aspects including the amount and degree of compensation that can be claimed by the

victim. She elaborated the students on the aim and objectives of the District Legal Services Authority. The students were advised to enrich themselves through practical training and exposure. She extended an invitation to the students of CTIL to visit the office of Legal Aid at any point of time in case of any need of update & information. She touched the emotional chords by telling that we have been taught about the Fundamental Rights in eighth standard and we must live with dignity and if anyone harms one's dignity one must fight for it. At the end of the Seminar Advocate Harleen Kaur while sharing her knowledge told the students to be aware of your legal rights.

His immense experience will enrich our students in a Multidimensional way. He has many Research papers to his credits. Dr. Parminder Nain is an eminent name in academic frame. He has attended innumerable.

OPINION

AI- Threats of Manmade Brain Power to Man

Man-made brainpower is innovation in which machines are provided the capacity to perform assignments that typically require humanlike reasoning. Kinds of simulated intelligence incorporate AI and brain organizations. It has a wide scope of potential purposes in transportation, medical care, diversion, schooling, farming, assembling, network protection, and public guard. Current purposes are

“thin artificial intelligence,” where the framework does one explicit errand, for example, perceiving pictures. Interestingly, a “general simulated intelligence” framework would work all the more extensively and utilizes a greater amount of the human capacities to learn and to apply that information to new regions. Genuine general artificial intelligence is probably not going to be accomplished for quite a long time.

Mr. Virat Rehani

A Catholic Diversity of AI:-

Man-made intelligence can possibly make laborers more useful, support monetary development, and improve life for a large number of individuals, as other new advancements have before. It has assessed

that artificial intelligence advancements could increment worldwide Gross domestic product above 15 trillion by 2030. They likewise can possibly upset numerous businesses including work market. The advantages presumably won't be shared

equally, and ventures probably will embrace computer based intelligence at various rates. States at all levels should discuss approaches to assist with tackling the advantages of computer based intelligence while limiting its dangers.

Alarms About AI:-

However artificial intelligence holds gigantic potential, a few onlookers are worried about safeguarding individuals' security. It can require a lot of information, which may be taken in a break or reused in manners the client won't ever expect. Predisposition is another worry. Assuming the information is deficient or one-sided, the outcomes the framework produces are probably going to be slanted or off base. For instance, a few organizations had started utilizing simulated intelligence to search over resumes and help pursue recruiting choices. Presently a portion of those businesses are re-evaluating the innovation after research demonstrated the frameworks could be one-sided against a specific gender (Female) and minorities. On the off chance that couple of

female have held a task previously, the PC could minimize the utilizations of new female competitors. A cycle known as “reasonable simulated intelligence” attempts to limit inclination by having the framework make sense of its reasoning for its surmisings and results. This might assist engineers with distinguishing and eliminate inclinations from the framework. Artificial intelligence is supposed to uproot a few specialists while making new positions, yet it is difficult to foresee the number of and what kinds of occupations will be impacted. One of the study projected that more lucrative positions requiring more instruction, for example, software engineers and statistical surveying investigators, might be generally impacted by computer based intelligence, as will

manufacturing|production occupations. Another study has predicted that 82% of people above 18 years of age believe that by 2050 robots and PCs will take care of business that people do now. Obviously, our economy has made and disposed an entire classes of occupations that prevailed previously, and work in different areas has moved. New positions and businesses could emerge, as occurred with the presentation of PCs and the web. A few scientists expect computer based intelligence will robotize undertakings however not really whole positions. Bosses and policymakers should be worried about how to assist dislodged laborers with acquiring the abilities for new positions.

HONOUR

Ms. Anuradha Chandel Joins as Principal of CT Public School, Maqsudan

Ms. Anuradha Joined as a Principal , CT Public School. Her journey is jeweled with 26 years of experience in teaching and various administrative works. POT DECORATIVE ACTIVITY BY CT COLLEGE OF EDUCATION

Decorative pots have always caught the eyes of people especially those with an artistic bent of mind. To develop creativity and to enhance the aesthetic sense of B.Ed. Sem. III students, CT College of Education (B.Ed. & M.Ed.), Maqsudan, Jalandhar organized Pot Making activity under Field Engagement Program. Students participated with great enthusiasm. They decorated the pots with different styles using artificial beads, flowers, and colors. The concepts, creativity, and ideas used by the students were commendable and admirable. The students enjoyed and did the artwork very enthusiastically. This activity surely boosted their confidence, creativity, and interest in art.

DO YOU KNOW

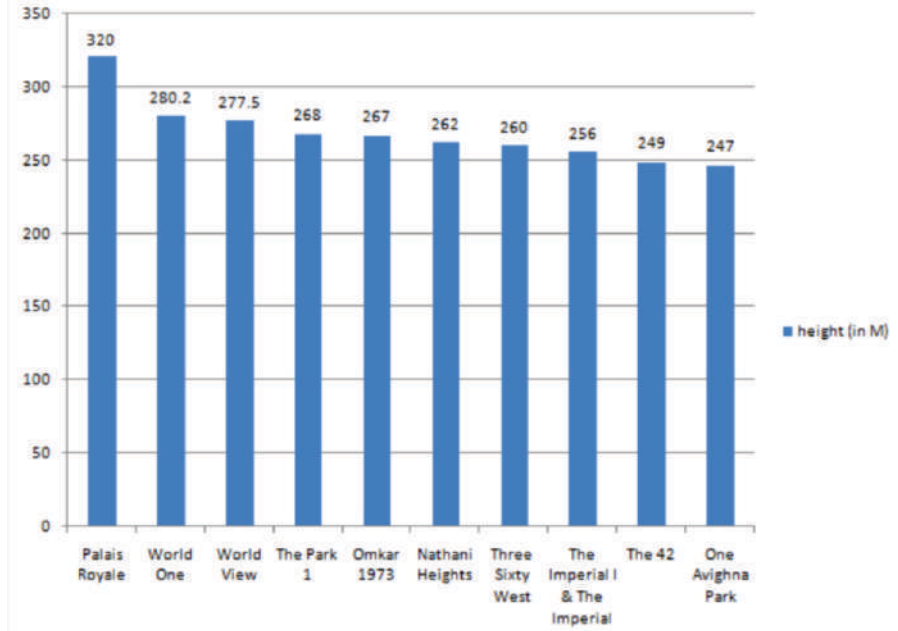

Tallest Skyscrapers in India: the Sky is the Limit

Skyscraper: A building must reach a height of at least 150 meters in order to be categorized as a skyscraper. It must also be self-supporting and have usable floor space that takes up at least half of the building’s overall height. While Mumbai is home to the majority of India’s skyscrapers has approximately 4000 high-rise

Structures and is ranked sixth in the world in terms of the number of skyscrapers, other cities like Kolkata, Ahmedabad, Hyderabad, Gurgaon, and Chennai have started to embrace the idea of building tall buildings. Below are the 10 tallest structures of india.

Name	City	Height	Floors	Year		The Imperial I & The Imperial II	Mumbai	256 Metres	60 Floors	2010	
Palais Royale	Mumbai	320 Metres	88 Floors	2018							
World One	Mumbai	280.2 Metres	76 Floors	2020		The 42	Kolkata	249 Metres	65 Floors	2018	
World View	Mumbai	277.5 Metres	73 Floors	2020		One Avighna Park	Mumbai	247 Metres	64 Floors	2017	
The Park 1	Mumbai	268 Metres	78 Floors	2020							
Omkar 1973	Mumbai	267 Metres	73 Floors	2021							
Nathani Heights	Mumbai	262 Metres	72 Floors	2020							
Three Sixty west	Mumbai	260 Metres	60 Floors	2020
