CBSE RESULTS

Manpreet Bags 92.8% in Humanities, Revti 92% in Commerce, and Krishta 87% in Sciences to Lead CTPS Students in Grade XII

The declaration of CBSE XII results brought immense joy to the CT family. Students and teachers greeted each other with smiles & sweets. The results were a testament to their hard work and dedication. Parents too were delighted with the results and thanked the teachers for their support and guidance. The joyous celebration was a memorable one and will be cherished by all. This year as in the

past, all students emerged with flying colors. Out of 56 students who appeared in the AISSCE exam, 22 were from the Science stream, 20 from the Commerce stream, & 14 from the Humanities stream. The top three scorers in all streams are as follows: In Commerce, Revti scored 92%, Khushi scored 91.8%, and Divyansh scored 91.4%. In Sciences, Krishita scored 87%, Suhas scored

84.4%, and Harleen scored 78.4%. In Humanities, Manpreet scored 92.8%, Dhruv scored 89%, and Ambreen scored 86.8%. Management lauded the staff's efforts for producing a cent percent result. The Principal of CTPS, Ms. Anuradha Chandel, and Vice Principal, Ms. Sukhdeep Kaur, appreciated the students' stupendous achievements. The parents & students thanked the teachers for

their dedication & efforts in preparing the students. Applauding students, the Managing Director of CT Group, Dr. Manbir Singh greeted students and teachers with impassioned gratitude. He said, "Celebrate your success but do not forget to pay your respects to your parents and teachers who have been your constant supporters and mentors."

Abhayjeet Singh of the First Batch of CT World's CBSE Class X Brings Home the Top Mark of 97%

A stellar performance by Harman, Mannat, and Suhani of CT Public School achieving 95.4%, 95.2%, and 94.2%. CT Public School and CT World School, Jalandhar continued their proud legacy by acing the CBSE class X exams. Abhayjeet Singh, one of the students in grade X has come off with flying colors with 97% of marks. Not only this, he scored the highest in Artificial Intelligence, Punjabi, and Social Science. Intending to become tech-savvy in the future, he earned 100/100 in Artificial Intelligence and earned the school a spot among the top schools. The performance of students at CT Public School was also exemplary. Harman Singh Padwal scored the top position with 95.4% while Mannat with 95.2% secured the second

position. Suhani scored 94.2%. Ten students earned above 90%, which is a matter of pride. The rest of the students also performed admirably, securing commendable and remarkable scores. Both schools

have impressive standing on CBSE X boards, with most students performing above expectations. This is a testament to the school's commitment to quality education. Overall, it is a proud moment for the

students, teachers, and the entire school community. At this proud moment, Ms. Madhu Sharma, Principal of CT World School, congratulated Abhayjeet Singh and other achievers and performers. She appreciated their dedicated work and lauded the efforts of the team at CT World School who supported and guided students in their pursuit of excellence. Congratulating the students, Ms. Anuradha Chandel, Principal of CT Public School said, "It is a matter of immense pride that the school continues to secure its legacy and scores such a stellar result. Congratulations to all the students, especially the teachers who made this possible."

IBM COLLABORATES WITH CT UNIVERSITY TO CONDUCT A DIGITAL MARKETING WORKSHOP

CT University in collaboration with IBM, conducted a workshop on digital marketing for IBM students of the School of Engineering and Technology. IBM professionals, Ms. Akanksha and Mr. Aman imparted valuable knowledge on the latest trends in digital marketing. The workshop provided an excellent platform for over 200 students to interact with industry experts. They learned about the latest tools and techniques in digital marketing. The 2-hour workshop was followed by a certification exam, which all 200 plus students successfully passed, and earned Google certification

in digital marketing. Dr. Kamal Malik, IBM coordinator, highlighted the importance of digital marketing in today's rapidly evolving industry. He also highlighted how it can help students stay ahead of the curve. CT University's Vice-Chancellor (officiating) Dr. Satish congratulated the students on their achievements and emphasized the significance of practical knowledge in the industry. He added that CT University will continue to provide opportunities for students to enhance their skills and stay ahead of the competition. The experts also shared their insights into digital

marketing in today's world. They discussed the importance of digital transformation and its impact on the business landscape. The experts also highlighted the need to stay up to date with the latest technological advancements and emphasized the importance of leveraging digital tools for better outcomes. Ms. Akanksha said digital marketing is not just a tool, but a strategic approach that helps businesses reach their target audience and increase brand awareness. With the exponential growth of the digital world, businesses must keep up with the latest trends and technologies to stay relevant.

Bhavyakri Champions at the State-Level Kung Fu Championship

It is with sincere pleasure that CTPS announces that Bhavyakriti from class 3 has achieved a silver medal in Chinese Martial Arts at the third state-level Mansuria Kung-Fu Championship-2023 and also received a certificate for her achievement. The Principal of CTPS, Ms. Anuradha Chandel, and Vice Principal, Ms. Sukhdeep Kaur highly appreciated Bhavyakriti's efforts and congratulated her for this achievement. They also acknowledged her for setting an example for other students and wished her luck in her future endeavors.

CT COLLEGE OF EDUCATION EXPERIENCES HARMONY & CALM

CT College of Education, Maqsudan, Jalandhar organized a Yoga Session for B.Ed. students on May 6, 2023. The session started with a basic introduction to Yoga, Pranayama, and Dhyana and their implementation in day-to-day lives, followed by a demonstration of Sukshama Vyayama, and Surya Namaskar. Exercises for relieving stress, reducing joint pain, and enhancing back flexibility were also performed for the students. The session was a success and displayed an excellent spirit of learning for students alike.

STUDENTS UNDERSTAND THE CIVIC DUTY OF VOTING

CT Group of Institutions in association with District Administration, Jalandhar, and Disha Deep NGO organized a Voting Awareness Session. This session aimed to ensure maximum voter participation during elections. Keeping this objective in mind, Mr. Lion SM Singh, President of Disha Deep, addressed the students and motivated them to vote during the Jalandhar Lok Sabha elections to be held on May 10, 2023. Dr. Surjeet Lal Sahota, Nodal Officer, Jalandhar Constituency (SVEEP) addressed the students to inform them of their voting rights. He informed the students about Form No. 6, Form No. 6B,

Form No. 7, and Form No. 8. During the program, students pledged they would not only cast their votes prudently but guide others in the same direction for a healthy democracy. At the end of the session, Tarsem Jalandhari, Vice Chairman of Disha Deep, extended a vote of thanks. He thanked the students for their enthusiasm and commitment to the cause. He also mentioned how it was important for everyone to take part in the process of nation-building and be responsible citizens. He concluded the session by urging everyone to go out and vote.

Bridging the Gap Between Theoretical Knowledge & Practical Understanding

As part of its mission to provide students with an opportunity to learn about practical working environments and industrial practices, CTIMIT organized a visit to Verka Milk Plant on April 28, 2023. The plant executives educated the students about the industry's history. They shared about varied production processes and challenges. The students observed the modern machinery and technologies used in the plant. They also got to witness the safety protocols and practices in place. The executives answered any questions the students had. The visit was a great learning experience for the students.

BITTERSWEET GOODBYES AT AU REVOIR: THE FAREWELL PARTY 2023

Department of Management Studies, CTIMIT, North Campus, Maqsudan organized AU REVOIR: The Farewell Party 2023. The party was for the final-year students of the Management Department. The event was a success as the students had fun and celebrated the end of their college journey. Numerous activities

contributed to the farewell's success. Students enjoyed games like musical chairs, saree tying, and passing the parcel. The students participated with enthusiasm in the events and had a memorable day. The laughter, the hugs, and the shared memories made this a day to remember. It was an emotional yet joyous occasion for

everyone involved. The titles of Mr. Farewell & Ms. Farewell were conferred on Ishan (MBA-4) & Ganeev (BBA-6). Students who contributed most to the event received certificates, trophies, medals, and encouragement for their efforts. Dr. Ramandeep Gautam, Assistant Director, HOD

Management Department, said these activities broaden students' knowledge and excitement. Students must excel in both academics and extracurricular activities. Campus Director, Dr. Yogesh Chhabra applauded the efforts made by students, staff, and faculty. He wished students success and prosperity.

VARIETY

CT University Collaborates with the “Arjan Vir Foundation” for **Thalassemia Awareness and Promotes Stem Cell Donation**

CT University, in collaboration with the Arjan Vir Foundation, organized an enlightening lecture on Thalassemia and Stem Cell Donation Registration. The session aimed to create awareness about the crucial role of stem cell donations in saving lives suffering from blood cancer. Jasleen Garcha, the CEO of the Arjan Vir Foundation, delivered the lecture, sharing valuable insights into Thalassemia and the importance of stem cells. CT University, recognizing its social responsibility,

consistently commits to significant causes. During the lecture, Jasleen Garcha provided in-depth knowledge about Thalassemia and stem cell donations, emphasizing the need for increased participation in this life-saving initiative. She highlighted that patients with blood cancer can be saved if a suitable stem cell donor is found. Unfortunately, the chances of finding a compatible donor are rare, estimated at one in a million. She further emphasized that stem cell donation registrations in India only

amount to half a million, while the population exceeds 1.3 billion. Consequently, Indians must import stem cells from abroad, costing up to Rs 50 lakhs, which is beyond the average person's means. The lecture explained the process of stem cell donation, reassuring potential donors that they face minimal problems while offering a dying person the gift of life. Motivated by the lecture, CT University students and faculty registered as stem cell donors on the spot. Deputy Director of Student

Welfare, Er. Davinder Singh said CT University and the Arjan Vir Foundation continue to urge individuals to register as stem cell donors, highlighting the transformative impact it can have on the lives of cancer patients. By increasing awareness and fostering a culture of donation, we aim to bridge the gap between stem cell demand and availability in India.

STUDENTS OF CTPS EARN ACCOLADES AT THE **SLOGAN WRITING COMPETITION**

CT Public School students proved they could dazzle everyone with their creativity and presentation. Yuvika of class XII and Harkirat Kaur of class X participated in the Sahodaya Inter School Slogan Writing Competition held at DRV DAV Public School,

Phillaur. Around 40 students participated in the competition. It is a matter of pride that Yuvika Uppal bagged a certificate of merit and a trophy in the English Slogan Writing Category. The Principal of CTPS, Ms. Anuradha Chandel, appreciated and

complimented the efforts of the students and the team. School Management congratulated and extolled the achievers. The parents of the achievers were elated and praised the students.

GLIMPSE

RESPECT, HONOR AND JOY AT CTPS LABOR DAY CELEBRATIONS

To commemorate the selfless service of the support staff who work with the utmost dedication to ensure hygiene and security, CTpians celebrated Labor Day with full zeal and aplomb. During a special assembly, students performed speeches and poems. They honored support staff's contributions towards the

betterment of the school and society as a sign of respect. The main objective of the celebration was to teach students the value of dignity in work and the significance of respecting everyone for their contributions to the country's progress. The workers watched and enjoyed the show with joy and thrill. The

students put in a lot of effort to make the celebration succeed, and the workers appreciated it. They expressed their gratitude to the students for honoring their dedication. They all left the celebrations feeling shared pride and accomplishment. The principal of CTPS, Ms. Anuradha Chandel, and vice principal, Ms.

Sukhdeep, felicitated the housekeeping department of the school for the hard work put in by them throughout the year and honored them with a little token of love in the form of a beautiful flower stick with a gift.

STUDENTS HONE MICRO TEACHING SKILLS FOR EFFECTIVE TEACHING

To equip the B.Ed. Sem. II students with micro-teaching skills, CT College of Education, Maqsudan organized an Expert Session on Micro Teaching Skills. Micro-teaching is a training technique

that is a system of controlled practice that makes it possible to concentrate on specific teaching behaviors and practice teaching under controlled conditions. The class size, duration of time, content size, and teaching skills

are reduced. The resource person was Mr. Arun Joy Thapar, Assistant Professor, CT College of Education, Jalandhar. He elaborated on micro-teaching skills. The students got hands-on experience on how to work in a

limited time frame, how to make effective presentations, and how to engage the audience. They also got feedback from the resource person and their peers. The session concluded with a question-answer session.

OPINION

THE ROLE OF CHAT GPT AND AI IN SCHOOL EDUCATION

Article Written By:
Dr. Som Prakash
Principal
Author & Motivational Speaker

Artificial Intelligence (AI) has been swiftly transforming various industries, and the field of education is no exception at all. With the emergence of AI-powered chatbots like Chat GPT (Generative Pre-trained Transformer), schools and educational institutions now have access to new tools to intensify the learning experience of students as well as to enhance the productivity of the academic administration of their premises. These AI systems promise to revolutionise & change education by providing personalised support, fostering interactive learning environments, and improving administrative tasks. In this article, we will explore the role of Chat GPT and AI in school education and their benefits. Personalized Learning and Support One of the remarkable advantages of using Chat GPT and AI in education is the ability to provide personalised learning

experiences to students. Every learner has different & unique needs and learning styles, and AI-powered chatbots can adapt to these individual preferences. By analysing students' data and interactions, these systems can create educational content and resources which can be beneficial to meet their specific requirements. This personalised approach surely can help students grasp concepts more intensively, ensuring that they receive the support they need to succeed academically. Chat GPT and other AI systems can also be used as virtual tutors, offering instant assistance and explanations when students face difficulties. These chatbots can answer questions, provide step-by-step guidance, and offer additional resources to further understanding. They can be available 24/7, allowing students to access help at their convenience, even outside of regular school hours. This personalised support helps students build confidence, overcome challenges, and encourages a positive learning experience. Interactive Learning Environments AI-powered chatbots can create interactive learning environments by engaging students in active conversations. Traditional teaching methods often rely on passive learning, where students receive information passively

without much interaction as in the case of most teachers who prefer it to be a one way traffic in the classroom. With Chat GPT and AI, students can actively participate in conversations, ask questions, and receive immediate responses. This interactive dialogue helps promote critical thinking, problem-solving skills, and far more deeper engagement with the subject matter. Chatbots can simulate real-life scenarios, helping students to apply their knowledge in practical situations. Application of the knowledge is vital to gain superiority over others. For example, in a language learning context, a chatbot can engage students in conversations and provide instant feedback on grammar, vocabulary, and pronunciation. Such interactive learning experiences enhance student motivation and make the learning process more enjoyable. Administrative Efficiency Other than supporting students' learning, AI-powered systems have been used to improve administrative tasks within school campuses. Chat GPT and AI can automate various administrative processes, such as scheduling, record-keeping, and communication. Administrative staff can take advantage of these tools to channelise as well as modernise their workflows, reducing manual efforts and freeing up time for more strategic tasks. AI-powered chatbots can handle routine inquiries from students, parents, and

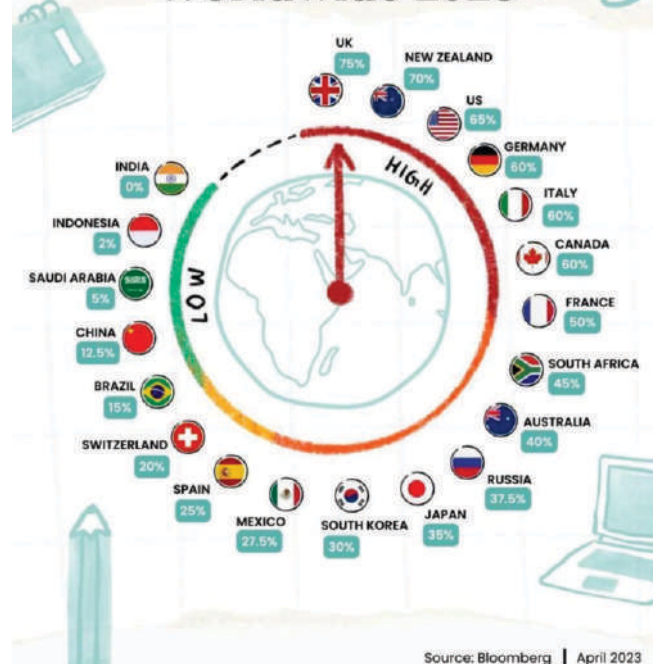

staff, such as information about events, holidays, school policies or timetables. By automating these tasks, chatbots reduce the workload on administrative staff and ensure prompt and accurate responses to inquiries. This efficiency enables school staff to focus on more complex and personalised interactions, improving stronger relationships with students and parents. Ethical Considerations and Challenges While AI-powered chatbots offer substantial benefits to school education, there are ethical considerations and challenges that need to be addressed. Data privacy and security are critical & vital concerns while implementing AI systems in schools. It is imperative to ensure that student data is protected and used responsibly, while taking appropriate consent and ensuring safeguards in place. Transparency in AI algorithms and decision-making processes is also crucial to maintain trust and fairness in educational settings. Another challenge is the risk of overdependence on AI systems, potentially leading to a reduction in human interactions. While chatbots can provide personalised support and assistance, it is important to maintain a balance between automated solutions and human discretion. The role of teachers remains indispensable in providing emotional support, mentorship, and encouraging social and emotional development in students.

CT HALF MARATHON - MAKING STRIDES FOR A CHANGE

The CT Half Marathon recently raised a record amount of donations and the proceeds were donated to various charities and social service organizations in the area. Among the charities are Rashtriya Andh Vidyalaya and Nishkam Sewa Bharti Trust. We thank all the dedicated participants who made this possible and urge everyone to continue giving back however they can. It is important to recognize the power of collective action and how it can make a significant impact on the lives of people in need. We must come together to support each other and create a more equitable society. Let us all strive to make the world a better place.

Recession Probabilities Worldwide 2023

HONOUR

With immense pleasure, the Dean (Research) office congratulates Ph.D. scholars Mr. Kulwant Singh (Electronics & Communication Engineering) and Dr. Kamal Malik (Supervisor) for the conduct of their Final Defense presentation of their Ph.D. thesis. This has happened because of their diligent work and dedication to research.

CT University Organises a Simulation Workshop to Upgrade the *Real-World Legal Experience of Law Students*

The School of Law and IQAC of CT University organized a simulation workshop. Simulation is a pedagogically valuable and practical tool in teaching the modern law curriculum. Simulation, as a form of experiential and problem-based learning, enables students to integrate the 'classroom' experience with the real-world experiences they will encounter in their professional lives. Experts from Civil Law, Criminal Law, Family Law, Labour Laws, and Drafting Skills developed lawyering skills in students by participating in practice-based exercises. Adv. Karan Singh (Vice President) District Bar Association, Adv. Chamanlal

Vashisht, an expert in Labour Laws, Adv. Deepinder Singh Gill, an expert in Criminal Law and Adv. Sumit Khurana led the sessions and provided students with practical learning experiences. They shared their vast experience of working in the Criminal field, Labour Law, Civil Field, and Family Law. They also presented various specimens to the students regarding the filing of F.I.R., framing of chargesheets, submission of challans, filing of complaints, written statements, and interim applications. Through this interactive session, students learned about the intricacies of the criminal justice system and the

various issues that arise in the workplace. They provided a comprehensive overview of legal principles and procedures. Such workshops benefit law students with hands-on experience and practical knowledge of the legal field. Dr. Simran, Principal of Law, expressed her delight at organizing such a valuable workshop for law students. She emphasized the importance of practical learning experiences and how they enable students to hone their skills and prepare them for the real-world legal profession. She added that such initiatives provide a platform for students to learn from experts in the field. They also enable

them to gain valuable insights for their future careers. Dr. Satish, Vice Chancellor (Off.), praised the School of Law and IQAC for organizing this simulation workshop. He emphasized the university's commitment to providing students with practical and experiential learning opportunities that enhance their academic experience. He further added that such activities make the students more employable, as they are provided with an opportunity to develop their skills and knowledge. This, in turn, gives them a competitive edge in the job market.

INAUGURATION CEREMONY OF CT CORN CORNER

CTPS celebrates CT Corn Corner's official opening. This significant milestone marks the beginning of an exciting chapter in CTpian's journey toward entrepreneurship skills. This machine is designed to provide an education that emphasizes entrepreneurship in the

curriculum. The CT Corn Corner will provide the opportunity for students to gain business knowledge and practice problem-solving skills. It will also help to create a greater sense of community and collaboration among CTpians. It is an exciting opportunity for the students

to gain a unique and valuable educational experience. Staff, faculty, and students thank CTPS principal, Ms. Anuradha Chandel, for her unwavering support and imaginative ideas. Her support has been instrumental in making this initiative a reality.

FACT FEVER

INDIA IS THE WETTEST INHABITED PLACE ON EARTH

Meghalaya village has won the Guinness World Record title for the wettest place on Earth, with about 11,873 milliliters of rain annually.

The monsoon season lasts six months, so make sure you pack an umbrella!

CHENAB BRIDGE IS THE HIGHEST RAIL BRIDGE IN THE WORLD

Not all of India's famous monuments are religious. The jaw-dropping bridge spanning the Chenab river in Jammu is 1,178 feet above the water. If you're afraid of heights, you might want to skip this one!

A VILLAGE WITH NO LOCKS AND DOORS MAY BE THE SAFEST ON EARTH

The village of Shani Shingnapur is famous for not having a door or lock on a single house. Beyond that, there has not been a recording of a crime for almost 400 years. Many people think that the shared vulnerability has created a neighborly trust between the residents, which has formed a protection stronger than a deadbolt or heavy gate.

GOLDEN TEMPLE SERVES FREE MEALS FOR THOUSANDS

The Amritsar Golden Temple is one of the most dazzling architectural monuments in India, but it is also a site of generosity and compassion. This Sikh temple is open to people of all religions. Every day, it serves a simple vegetarian meal, often to over fifty thousand people. What's even more impressive is that almost all the ingredients are donated. This private day tour to the Amritsar Golden Temple and Wagon Border is one to not be missed.

Did you know ?

The word "Checkmate" in chess comes from the Persian phrase "Shah Mat" meaning "the king is helpless".
